

Young Water Professionals Day

Organized together with the IWA-YWP Chapter Austria

The Water sector belongs to you, the next generation. You as Young Water Professional (YWP) will be the future water leader and can create the sustainable water sector with all its facets.

The IWA Micropol conference in Vienna offers practical and effective ways for those of you who are interested in a water sector career by following your interests and gaining experience.

Source: Singapore International Water Week

Participants of our YWP-Day will have the chance to be part of an exciting event by presenting their scientific work in front of a critical audience, exchanging knowledge with experts in the field of micro pollutants, learning about other YWP initiatives, discussing hot topics in round tables and for sure developing their skills.

Be part of it and start creating your network of colleagues in the world of future water leaders.

WELCOME

The Specialist Group on Assessment and Control of Hazardous Substances in Water (ACHSW) invites you to participate in the 10th Micropol & Ecohazard Conference 2017, to be held in Vienna from September 17-20, 2017. The conference is organized by the University of Natural Resources and Life Sciences Vienna (BOKU) in co-operation with the Technische Universität Wien (TU) and supported by the International Association of Water Supply Companies in the Danube River Catchment Area (IAWD).

After 20 years of scientific research in the field of micropollutants, in this conference we seek to compile the current knowledge on substances of emerging concern and their effects and encourage its implementation in the management. Therefore, we gather scientists, leading experts, decision makers and practitioners in the field of wastewater, drinking water and water reuse from all over the world to share the latest scientific development and expertise on engineering, operation and management but also environmental chemistry and eco-toxicology.

TOPICS

- Sources and fate of micropollutants
- Effect-based biological test systems
- Monitoring - methodology and strategies
- Removal strategies and source control
- Technical solutions and requirements for reuse of treated wastewater
- Technical and economical assessment of micropollutant removal at full-scale
- Prioritization and regulation of hazardous substances
- Implications for water suppliers and wastewater plant operators
- Risk communication

Special topics with watercycle relevance

- Endocrine disruptors
- Antibiotics resistance
- Management options for operators

There will be more than 100 oral presentations, numerous posters and 4 workshops to enable an intensive discussion on the topics.

There are different post conference technical tours on 21 September 2017

IMPORTANT DEADLINES

Abstract submission deadline:	3. March 2017
Notification of acceptance:	31. May 2017
Registration commences:	1. June 2017
Final Programme:	1. July 2017
Early bird registration deadline:	1. August 2017
Submission of full paper:	1. August 2017

ABSTRACT SUBMISSION

For platform presentations please upload your extended abstract of 2 A4 pages of text including the title, abstract, keywords and main text and a maximum of additional 2 A4 pages for illustrations (i.e. tables, diagrams, graphs, etc.) as a word document via the IWA online submission system.

For poster submission an extended abstract of max. 2 pages.

For detailed instruction visit the conference homepage.
